Dear Dennis

Thank you. This template looks excellent.

I am also sending you a template that I have now developed for my own research, in case you find any of time etc, I do not imagine that you would want to attempt to go into that level of detail.

All the best

Rebecca

Hi Rebecca,

How exciting! We will share this information (bearing in mind that it may change) with the rest of the class on Thu

Last week, we spent some time discussion the information we want to collect for each model, in order to better cor team could take a look at let us know if there's anything missing!

Dennis
